The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/518,975	<b>Applicant(s)</b> MOORE, TIMOTHY IAN	
	<b>Examiner</b> MICHAEL BROWN	<b>Art Unit</b> 3772	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4-7, 9-13, 15 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilkerson.

Wilkerson discloses in figures 1-4 a shell for an ankle brace the shell 12 being arranged to be fitted to a side surface of a person's leg (fig. 3), on one side of the person's leg and to be registered with respect to the person's ankle bone (fig. 3), on one side of the person's leg, the shell being made of a semi-rigid material (relative rigid foam), having an inner surface (fig. 2), to conform semi-rigidly to a side surface of a person's leg, so that when the heel is so fitted and registered the shell extends between an upper extent (fig. 3), of the shell above the person's ankle bone (fig. 3) on one side of the person's leg and a lower extent (fig. 3) of the shell below the person's ankle bone, on one side of the person's leg, a forward extent (fig. 1) a rearward extent of the shell (fig. 1), the shell not extending beyond the upper, lower, forward and rearward extents thereon, the shell having a registration portion (the lower opening between 13, 14), the registration portion is provided by a hole (the lower concave portion between the arms of 13, 14), the slot opens to a hole (the slot is the upper portion of the concave shape) and the opening is the lower portion of the concave shape), the slot stops short of the

Art Unit: 3772

hole, the slot opens into the hole, the registration portion is provided by a recess in the inner surface of the shell, the slot extends as far as the recess, at least partly into the recess, the shell extends partly into the recess, the registration portion has a non-circular outline (fig.14), the shell is a generally uniform thickness (fig. 2), a means (32, 33) for adjustable strapping the shell to the person leg, the shell has a forward projecting region (fig. 3) and a boot (fig. 17) used with the shell.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-3, 16 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wilkerson.

Wilkerson discloses in figures 1-4 a shell for an ankle brace, substantially as claimed. However, Wilkerson doesn't disclose what the width of the slot is above the registration portion or what distance the projection region projects outwardly. It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the width of the slot disclosed by Wilkerson could be the same distance as the distances recited in claims 2-3 and the projection portion could project the same distance as recited in claim 22 because these dimensions are design choices that don't provide any novelty or an inventive step over the prior art.

***Allowable Subject Matter***

Claims 17-19 are allowed.

***Response to Arguments***

Applicant's arguments with respect to claims 1-7, 9-16 and 21-22 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
